

Fresh Healthy Vending Closes Out Quarter With Near-Record Franchise Sales Bookings

277 Machines Sold Representing \$2,788,000 in Deferred Revenues, 257 New Locations and a 56% increase from Fiscal Q3, 2015 vs Fiscal Q3, 2016

San Diego, CA – April 6th, 2016 (OTCQB: VEND) – Fresh Healthy Vending International, Inc. (soon to be Generation NEXT Franchise Brands) announced today its 2016 Q3 results, highlighted by impressive sales, premiere location procurement.

After showing consistent strength out of the gate in both January and February, Fresh Healthy Vending closed out the quarter with an impressive 277 vending units sold, representing \$2,788,000 in deferred revenue. (Fiscal Q4, 2015 saw 279 machines sold for \$2.8 deferred revenue). In addition to impressive bookings, the company further expanded both its reach and operator network alike, adding 257 secured locations across the country and over 22 new franchisees to the FHV family, continuing a successful trend for the company.

“As a June 30 reporting entity, Fiscal Q3 was a success for the company, booking near record franchise sales numbers. We continue to consistently secure a diverse range of new healthy vending machine and micro market locations for our franchisees attracting high profile customers such as the NBA’s OKC Thunder and the Lincoln Center in New York City as examples” says Nick Yates, Chairman of Fresh

Healthy Vending. "One area the company will be focusing on in the next quarter is finding ways to increase the number of units we install which will result in increased revenues. Our shareholders deserve to see revenue being recognized versus sitting in a deferred basket on our books. To achieve this the company will continue its capital raising efforts among other programs in place to facilitate this need. Overall, I am pleased with the companies performance over the last three months and look forward to finishing the fiscal year on a positive note."

That performance and expansion will be coming not only in the form of sales and franchises, but also in the form of a company wide commitment to gaining national visibility for its franchisees, its brand and more importantly, it's message.

"We have taken a close look at expanding our marketing and brand awareness initiatives to support our franchisees on a national level" says Paul Schmidt, Chief Marketing Officer for Fresh Healthy Vending. "Just last month we joined forces with national wellness advocate groups in support of a Family Wellness initiative featured in USA Today. Just one example of our focus on providing national visibility and support to our franchise network and our brand."
